

It is now widely known that 1 in 68 children fall somewhere on the autism spectrum. What is less widely considered is the fact that as these children become adults, they need a place to live. In Massachusetts, about 10,000 young people will be scrambling to find affordable, supportive housing over the next 20 years.

**Autism Housing Pathways (AHP)** is the only non-profit in the state exclusively dedicated to the needs of families looking for housing solutions for their family members with autism or other developmental disabilities. We provide information & training to families and individuals on housing, supportive services and available funding streams, empowering them to create new, innovative housing models that are safe and sustainable. AHP also works with service providers and public officials to make them aware of the necessary supports for individuals with autism to be successful in a residential setting.

On March 12, 2016, AHP will hold its major fundraiser of the year, “Dancing with the Celebrities”, in Winchester, MA. Please consider a tax deductible sponsorship. Our Tax ID number should you need it is 27-264564.
